

Self-Reporting Damage Assessments

Hardin County Residents Urged to Self-Report Damages to Homes and Businesses

Following Hurricane Laura, the Hardin County Emergency Management Office is encouraging all Hardin County residents to self-report any damages to their homes and businesses via the portal and website below.

If you sustained damage to your home or business as a result of Hurricane Laura, please utilize the link below to submit a damage survey. Within the survey, disaster survivors will have the opportunity to request assistance from volunteer organizations at their property. This information will also help us request more resources and volunteers into the area to help.

Residents will be able to upload pictures and report damages to the property. This voluntary self-reporting should not substitute residents reporting damages to their insurance agencies, nor does it guarantee disaster relief assistance.
