## Hardin County Announces Opening of Citizens Collection Station

On behalf of Hardin County Commissioners Court, I am pleased to announce the opening of a Citizens Collection Station on Tuesday, August 13, 2019 at 9:00AM. This facility will be open to all citizens of Hardin County for disposal of some household waste materials.

Residents will be able to dispose of accepted household waste items by first obtaining a permit from the County, then delivering to the Citizens Collection Station and offloading into a container located onsite, only during hours of operation. We will not be able to accept any hazardous waste as our Station Facility Permit does not allow for this type of disposal.

The Citizens Collection Station will be overseen by Commissioner L.W. Cooper Jr. and is located at 1675 Joe Register Road, Kountze, near Hawthorne Field (Hardin County Airport) off of SH 327. Hours of operation will be: Tuesday and Thursday, 9:00AM – 5:00PM; and Saturday, 9:00AM – 1:00PM (except on County Holidays).

You will be able to obtain a permit for waste disposal in person at the Hardin County Floodplain office located in the Courthouse, or you may do so online beginning Monday. For more information on permits, please visit the County website and click on [Citizens Collection Station](#) under 'Quicklinks' or call the Floodplain Administration office at: (409) 246-5251.
