

Conservationists, Texas Department of Transportation Announce Public Meeting on Big Thicket Protections

For months, Big Thicket advocates have participated in productive conversations with the Texas Department of Transportation on how to limit the impacts of highway expansion on the Preserve, surrounding communities and the scenic roadway that thousands of park visitors and community members use every year.

We are encouraged by our progress and TxDOT's willingness to make changes. Crucially, TxDOT agreed to hold a public meeting to inform communities of potential positive changes to the highway expansion plan and receive comments.
